INTRODUCTION

Why Kaushal Ganga? In an endeavor to prepare a generation of skilled employees and leaders in alignment with the modern day market demands, the Central and State Governments have shown a keen interest in laying out an institutional mechanism for the development of skills of people of the country. For that purpose, Ministry of Skill Development & Entrepreneurship and National Skill Development Council at National Level and State Skill Development Councils at State Level acts as a catalyst and monitors all the related developments in the area of Skill Development.

The foundation, in view of the above, has been working on the development of an integrated software, in consultation with the various skill sector councils, experts involved in its entire mechanism, which shall act as an **'one for all'** application to manage and monitor the activities of all the stakeholders including NSDC, SSCs, Training Partners, Assessing Bodies, trainers, assessors, etc. in real time.

Working on the above line, we have come up with an Integrated IT solution that will enhance the workflow and monitoring mechanism of the entire chain**covering the Skill process end to end i.e. inclusive of everyone and everything.**

What's Kaushal Ganga?An Integrated Skill Management Application developed for Managing and Monitoring the entire Skill Process. It Integrate various Components and Segments involved in skill development process undertaken by various Sector Skill Councils. Incorporating each and every subset of integrated skill matrix reckoning from Mobilization, Counselling and processing, Registration, orientation & training, final assessment, employment and appraisal certificates & post grading covering Stakeholders, SSC's, Training Partners, Assessing Bodies, trainers, assessors etc.

GETTING STARTED - OVERVIEW

Let's begin a journey of floating into the Integrated Ganges of Skill to attain salvation and flawless Operations.

Let's take a dip into the broad description of Integrated IT Business solution for Skill Process in line with the guidelines and regulatory framework of NSDC.

A Quick Glimpse to the Operational framework of NSDC:

Log into https://www.kaushalganga.com
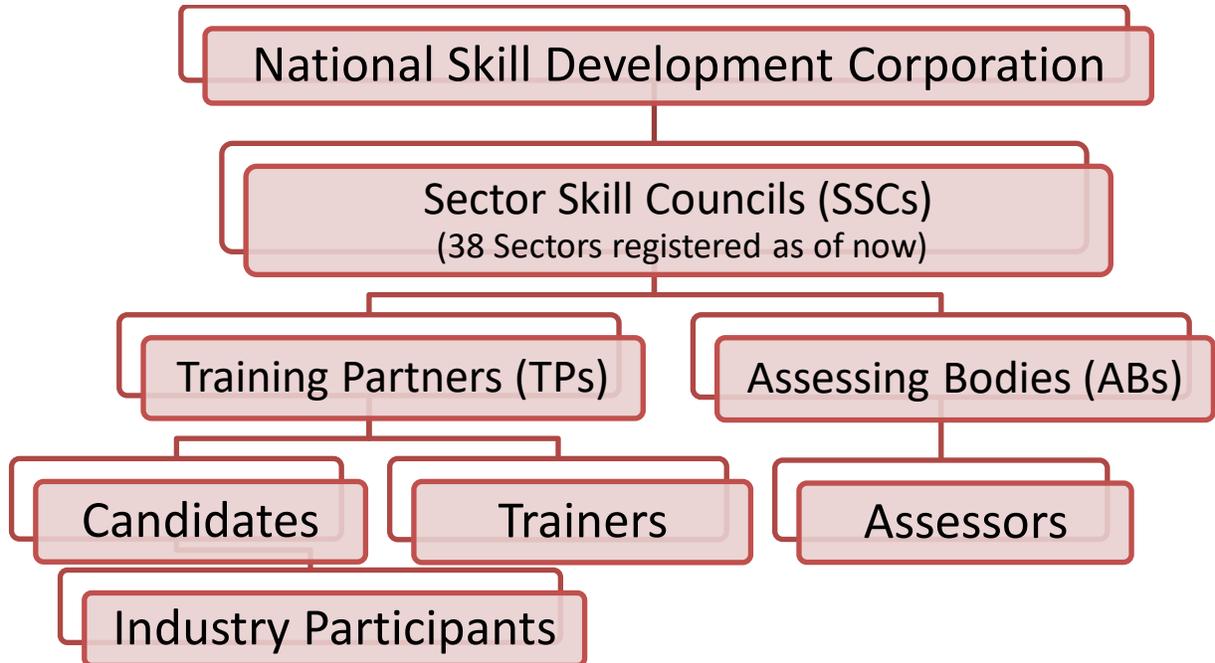

- A Comprehensive module page will appear. This comprehensive module consists of 12 respective segments involved in Skill Development Process
- The web page leads you to the particular module you want to run. The respective user may access his/ her intended module.
- Once the module you want to access appears, either click on **"Login"** or click on **"Apply Now"** to get yourself registered in case you haven't sign up
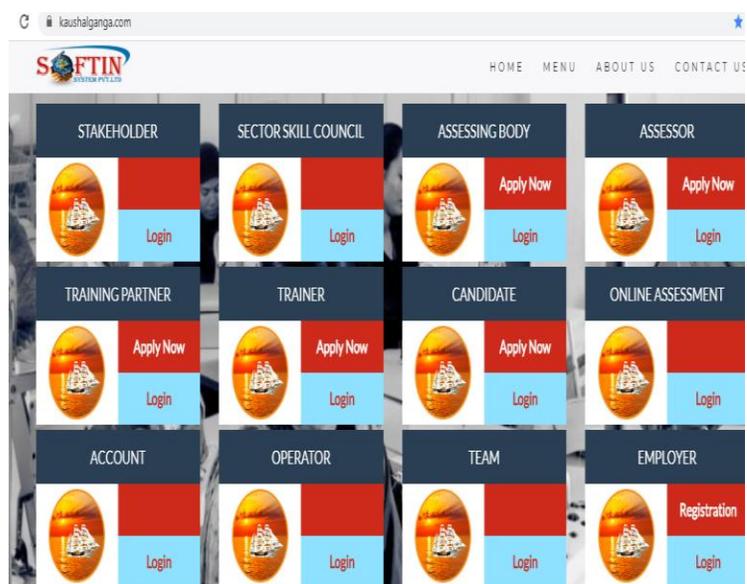

01 MODULE FOR STAKEHOLDER

❖ The user may log into Stakeholder Module using the credentials i.e. using Email Id registered with admin and Password.

❖ On Successful login, **Dashboard** will appear comprising 6 Sections namely –

- Control Panel;
- Sensitive Data Analysis;
- Geo-Location;
- Graphical Analysis.
- Sector Analysis.
- Download Report.

Section 1: Control Panel

- The control panel depicts the summarized description of four principal subsets of integrated skill matrix **namely**-
    a. Summary - SSC Control Module
    b. Summary - Employment Control Module
    c. Summary - Assessment Control Module
    d. Summary - Training Partner Control Module
